DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group I, Figs. 1-5, in Paper No. 9 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claim 3 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 9. Claim 3 recites the limitation wherein the heel putting part is a sliding portion that can slide on the floor face of the vehicle that is directed to Figs. 9-11.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Mack, U.S. Patent 2,464,327.

Mack shows, in Figs. 1-3, a pedal device for a vehicle having a pedal member 20 depressed by the driver, and arm member 29 engaged with the pedal member, for turning when

Art Unit: 3682

the pedal member is depressed, and transmitting driver's force-on-pedal to the brake master cylinder 32, further comprising;

a footrest means 22 for restricting the turning of the arm member when the driver's force-on-pedal which acts on pedal member is less than the fixed value (the fixed value can be construed as being the amount of force that is required to turn the pedal member 20 about the shaft 27);

wherein the pedal member is composed of footplate 21 to be depressed by the driver, and protruding portion 24 engaged with the footplate, on which driver's heel can be put;

wherein the heel putting part is a protruding portion fixed to the bottom of the footplate;

Allowable Subject Matter

5. Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Footrest and pedal device for vehicles.
